

INTERNATIONAL SOCIETY FOR MINE SURVEYING

COMMISSION 1: Education, Legal Issues
History, Website Presentation

CHAIRMAN: Dr.-Ing. Ralf Schulte

Minutes

Commission 1 Meeting

September 19, 2013 2:00pm – 3:00pm

Top1 Opening Session

The 2013 commission 1 meeting was opened by the commission chairman.

The meeting was attended by 8 colleagues from 6 countries

One topic was added to Agenda as the new topic 4: Future work of commission work

Top 2 Election of a new Commission 1 Chairman

The present attendees started a Discussion about an election of a new commission chairman. Within this discussion we discussed generally about the difficulty in keeping the commission working.

At the end we could summarize the following results

- Use of modern digital communication possibilities such as video conferences in the period between the ISM congresses
- The focus of the commission work could be during the ISM congresses; e.g. a special track with of sessions with content of commission work
- Define main topics, not only scientific subjects but also interesting subjects coming from the real working life
- At the end we did not find a solution for a new chairman

Top 3 New Host and Administrator for the ISM website

The present ISM website is hosted by *RWTH-Aachen University IT-Center*

Due to several reasons, the IT-Center will stop the support at the end of 2013. If we won't find a new host, the ISM-Website will be switched off at the end of this year.

We discussed this issue with the following result:

The ISM Website should be connected to the President and so the host of the coming congress.

Top 4 Future of ISM commission work

This topic was discussed under topic 2

Top 5 Closing session

The session was closed by the commission chairman
